About Amber Thiel

She is a health and fitness expert, international speaker and author who has dedicated her life to empowering women to love their bodies, nourish their souls and get real results that last. Her humor and passion combined with her background in education, anatomy, biology, nutrition and personal training is phenomenal, but it's the loss of her 45-year-old mom to breast cancer and overcoming years of depression, eating disorders and self-sabotage that is the real catalyst for her mission and role as Founder and CEO of The Healthy Edge.
